

Careerpilot *One, free, careers site for students, parents, teachers, advisers and leaders*

www.careerpilot.org.uk

Funded by
20 unis and
6 NCOPs

Careerpilot can be used across a school and as a key resource to support the role of the Career Leader.

The site includes:

Student Zone

Reporting Zone

Adviser Zone

Parent Zone

- One-stop information on all choices for 11–19 yrs
- Quizzes and Career Tools to help students decide.
- Students have space on site to save all choices

- See reports by group or individual showing student's choices.
- Helps to meet individual needs

- Presentations, resources to use with students including 5 week PSHE programmes, etc.
- Free materials, resources and training on request

- Giving parents answers to career questions by age, qualification type or topic
- Quiz: what every parent needs to know

9am—3pm daily in term time

Students

Students can use the site from Y7—Y13.

Information on all the choices, 800 job profiles, Labour Market Info, course and apprenticeship search tool, find a provider near to them, tools to help them decide. [Three-stage careers process](#) they can use throughout life.

If they [register \(top right of home page\)](#) they can save their choices as they go in Career Tools.

Careers Leader

Careers Leaders can use Careerpivot as a key resource that all staff, students and their parents can use, offering one consistent source of information and tools for everybody.

The [Careerpivot Adviser Zone](#) provides resources that help to embed careers and Careerpivot into PSHE/the role of the tutor/subject teacher/ guidance staff, so it can become the 'go to' resource for all staff. The Reporting Zone provides data on student choices to show how the school is taking note and responding to individual student needs.

Tutors/PHSE staff

[Careerpivot](#) is a great source of information that tutors and PSHE staff to get all the latest career information or refer a student to, who has a specific careers question.

In the [Adviser Zone](#) there are activities for every year group including 5 week PSHE programmes, with all resources, for every year group.

There are also 20 minute careers activities for each Key Stage that can be completed in tutor time sessions (these do not require a computer).

Subject Teachers

Gatsby 4 says subject teachers should connect curriculum learning with careers, Careerpivot has a [Start with a Subject](#) section where subject teachers can show this in their lesson time. For each subject there are sample jobs, apprenticeship, college or degree courses and free online courses that the subject could lead on to (look great on Personal Statements).

New for 2019/20: [Activities that link with a specific curriculum topic](#) showing how the subject links with careers—including links to videos and other resources.

Personal Guidance

[Careerpivot](#) is a great resource to use if you are the Careers Adviser or as part of a guidance process as recommended through the [CEC What Works research](#). Use Careerpivot as a pre-guidance tool by delivering '[off the shelf](#)', [age appropriate lesson](#) to each year group (1 hour) before guidance. The guidance adviser will then have lots of information to start off a one to one session. During the session help the students 'bookmark' the things they are interested in so they can be saved in Career Tools (they need to sign in).

At the end of the guidance interview set action points in the Career Tools and write a report for the students in the Reporting Zone.

Parents/carers

Parents love the main [Careerpivot site](#) so do tell them about that. Gatsby 2 says parents should be kept informed about Labour Market Information, in the [Adviser Zone](#) you can request 30 '[Hot Jobs](#)' resources that do just this. Pop them in you parent's newsletters, display them as posters, use them on your electronic information boards.

The [Parent Zone](#) has answers to careers questions that help parents get the information they need to help their young person

View 'User Guides' explaining how to use Careerpivot, request free training or attend a webinar.

Request access to the Reporting Zone or request our free materials. [All in the Adviser Zone.](#)
