

# Careers Hangman

- Students work in a group or individually
- Students are given a job that they need to draw out either on the board or on a piece of paper
- Students in their group have to guess the job by guessing the letters of the alphabet. Each time they guess an incorrect letter the student draws a section of the Hangman—see image below—(the turn could be passed over to another group to guess if not guessed correctly)
- A point is awarded for each correct guess—the winning group is the one that scores the highest number of points

Extension: Students could use [www.careerpilot.org.uk](http://www.careerpilot.org.uk) to research the jobs that they are interested in or find the one that has the highest salary

## Examples of suggested jobs:
